Stainless Steel Primary Molar Crowns

01

Exceptional Quality, Unrivaled Performance : Utilizing Surgical Grade 316L Stainless Steel, Engineered for Biocompatibility.

02

Reflecting Brilliance : Mirror-Polished Outer Surface for Unmatched Shine and Lasting Elegance.

03

Unrivaled Retention : aluminium oxide treated inner surface for better retention and peace of mind.

05

Precision Perfected : Enhanced Cuspal Anatomy for Effortless Mastication and Lasting Comfort.

06

Laser Marked : for Identification and Traceability.

Rainbow 6 SS Permanent Molar Crowns

04

Perfect Fit, Every Time : Pre-Crimped, Pre-Contoured Crowns for a snap fit

Magnificent SS Crown

Titanium-Nitride Coated Primary and Permanent Molar Crowns (TiNCs)

Advantages

- ✓ Enhanced Biocompatibility – better epithelialization and lesser plaque accumulation
- ✓ Improved Aesthetics
- ✓ Increased Durability with better compressive strength and resistance towards bruxism
- ✓ Cost-Effective
- ✓ Minimal Tooth Preparation

Superior Gold Crown

Eminent Rose Gold Crown
